

Executive Summary

Mission Statement: *G.A.P. - Graphic Arts Program for Kids, Inc.* addresses the need for a quality introductory graphic arts program for in school, after school, homeschool, and youth programs. *G.A.P. - Graphic Arts Program for Kids, Inc.* provides youth 7- 17 the basic understanding of graphic design programs and the enjoyment of creating digital art.

G.A.P.'s Goal is to Introduce, train and expose youth (7-17) to the basics of graphic design software and digital art creation. This is achieved by providing youth with an enriching learning environment that engages them by using various exciting & unconventional learning methods (Youtube, guest speakers/workshops, and design labs). ***G.A.P. - Graphic Arts Program for Kids, Inc.*** will also expose youth to various college choices and discuss the many jobs available in the graphic arts field. The ultimate goal is to introduce youth to the world of digital art creation and graphic design through exploration and a child's natural love of self-expression through art.

After the completion of this course, participants will understand the following:

- How to use Industry standard digital art and graphic design creation software
- How to create basic digital artwork
- Fundamental design & art terminology
- How to identify specific characteristics and well known works by influential artist
- How to print digital artwork and save for online use
- The various jobs in the field of digital art creation
- Entrepreneurship

***G.A.P. sessions can be tailored to fit any class size, length of time or budget.**
